

STAR+ 

Beats everyone into second place thanks to simple operation, reliability and superb productivity.

**New generation non-stop glueless turret rewinder**

Latest generation technologies and accurate digital control of rewinding tensions make STAR+ a winning solution for all PS labels.

Reel change speeds of 100m/ min. and rapid job changeover times keep productivity at a high level and glueless hooking technology for web-to-core fixing saves money and ensures glue-free rolls and a clean working environment, particularly suitable for logistic, retail and food label production.

STAR+ is the non-stop glueless turret rewinder for ongoing operation and fast changeover times enabling superb productivity

# TECHNICAL DATASHEET

	<b>TR400</b>	<b>TR450</b>	<b>TR530</b>	
Max. suggested working web width	400	450	530	mm
Max. mechanical speed (dep. on material)	656	656	656	m/min
Max. hooking speed (dep. on rewinder size)	360	360	360	m/min
Max. rewind diam. on turret with 76mm	400	400	400	mm
Max. rewind diam. on turret with 50mm	300	300	300	mm
Max. rewind diam. on turret with 40mm	290	290	290	mm
Max. rewind diam. on turret with 25mm	250	250	250	mm
Minimum lane's width	25	25	25	mm

Label type: SA paper and plastic labels, PS paper and plastic labels, plain labels, no label look.
